

# PLS PROGRAM DELIVERY OPTIONS

## A FLEXIBLE POOL OF RESOURCES

The curriculum mapped resources can be used as 'at the ready' learning experiences which can integrate with and help schools to promote their values in the classroom.

The resources also support a range of Frameworks such as Positive Behaviour for Learning and Be You (Beyond Blue), while also supporting and integrating with many other wellbeing programs and resources.

## 2 YEAR PROGRAM OPTIONS

### OPTION 1A

#### YEAR 1

The whole school (Foundation to Year 6) participates in the full 6 Units of the CORE program together over 4 terms/ 12 months. The whole school is participating

#### YEAR 2

Foundation to Year 2 classes repeat the 6 units of the Core program, and Years 3 to 6 participate in the full 6 units of the Extension program over the second 4 terms/12 months.

#### BENEFITS

- For the first 4 Terms/12 Months no matter which term the program is started the whole school is learning the same concept at the same time
- This supports the common language and the repetition and practice approach to embed learning
- The units are delivered as full units of work which is supported with the curriculum mapping
- The parent newsletters can be sent home at the start of each learning unit

### OPTION 1B

Where option 1A delivers units as full units of work, this 2 year delivery option is approached by implementing 3 lessons of the 6 core program in the first 6 months/2 terms, and the other 3 lessons in the last second two terms.

E.g., 3 x Highlights, 3 x Feelings and 3 x Focus Lessons in the first term of implementation

This also achieves a 2 year or 8 term full delivery of all Units where Foundation to Year 2 classes repeat the content in the second year and Year 3-6 complete the 12 Units over 2 years, although the concepts are mixed.

### OPTION 1C

This option also delivers the full program over 8 terms/2 years, to be delivered as follows:

- ✓ Foundation to Year 2 students participate in 3 lessons of each unit Plus a Reflection lesson across 3 terms of the year allowing for 6 weeks of reflection in Term 4 covering the 6 concepts learned that year.
- ✓ Year 3-6 students participate in the full 12 units being delivered in a mix of core and extension units across the whole school year delivering 3 lessons from each of the 12 units with a total of 216 lessons over 8 terms or 24 months.

# PLS PROGRAM DELIVERY OPTIONS:

## 4 YEAR PROGRAM OPTIONS

### OPTION 2A

#### In this option:

- ✓ Foundation to Year 2 students participate in a 2-year repeating program delivering 3 lessons of each unit Plus a Reflection lesson across 3 terms of the year allowing for 6 weeks in Term 4 for reflection on each of the 6 concepts they learned that year.
- ✓ For students in Years 3-6 this is a 4-year program with 3 lessons of each unit plus a reflection lesson being delivered across 3 terms of the year allowing Term 4 for 6 weeks to Reflect back on each of the concepts they learned that year.
- ✓ In the first year or 4 terms the whole school participates in the CORE program - 3 lessons of the 6 Core Units.

### BENEFITS

No matter which term the program starts the whole school is learning the same concept and doing the same lesson each week in Year 1

- This supports the common language approach
- This delivery option allows week 1 and week 10 each term for other priorities and it also allows the program to finish after week 6 in term 4 leaving time for teachers to manage all their end of year responsibilities -this is a more relaxed delivery option for teachers
- The parent newsletters can be sent home at the start of each learning unit and can be sent home again the following year when F-2 are repeating the core concepts with the remaining 3 lessons and the newsletters for the extension program can go home to the Year 3-6 parents
- The program will remain fresh for students and teachers stretching across 4 years

### OPTION 2B

#### In this option:

- ✓ For Foundation to Year 2 students this is again a 2-year program. This option is a repeat of Option 1A except it has the Highlights Unit being delivered across the whole school over the first term. The rest of the CORE program is delivered in 3 lessons of each unit plus a reflection lesson across the rest of the 3 terms.
- ✓ For year 3-6 students it is a 4-year program. This option is a repeat of Option 1A except it has the Highlights Unit being delivered across the whole school over the first term of Year 1 and the full Appreciation Unit being delivered across years 3-6 in years 2 and 4, embedding the positive impact

### BENEFITS

- No matter which term the program starts the whole school is learning the same concept and doing the same lesson each week in Year 1
- With the Highlights and Appreciation units being embedded across the first term of implementation of the program it is really embedding the positive focus of the program and embeds Highlights across the whole school community
- The program again allows for weeks 1 and week 10 to be free with more time for teachers in Term 4
